Design Tips for Your Graphic Designer:

- **Tone:** Warm, affirming, minimalistic—not clinical or overly corporate
- **Typography:** Clear sans-serif fonts with variation in weight (e.g., Inter, Open Sans)
- **Color Palette:** Mint green, cream, soft lavender, neutral brown, and pops of coral for energy
- **Style:** Rounded corners, subtle motion/animation cues (e.g., progress bar, badges pulsing)
- **Layout Balance:** Use **1/3 image + 2/3 text** splits where possible for visual digestibility
